DETAILED ACTION

1. Applicant's amendment and election filed April 23, 2003 has been received and entered. However, based on the prior art search, further restriction is deemed necessary. The examiner apologizes for this additional requirement.
2. Claims 21-48 have been cancelled.
3. Claims 49-51 have been added. Claims 1-20 and 49-51 are currently pending.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15 and 49-51, drawn to an herbal composition, classified in class 424, subclass 725.
 - II. Claims 16-20, drawn to an herbal composition, classified in class 424, subclass 777.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. Each invention has different required ingredients; therefore, the different inventions would function differently in the body. Therefore, the inventions are distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1654

5. This application contains claims directed to the following patentably distinct species of the claimed invention:

A) legumes selected from *Glycine max*, *Cicer arietinum*, *Phaseolus mungo*, *Phaseolus vulgaris*, *Phaseolus radiatus*, *Psophocarpus tetragonolobus*, or *Mucuna pruriens*;

B) cereals selected from *Triticum aestivum* or *Hordeum vulgare*; and

C) pseudocereals selected from *Amaranthus hypochondriacus*, *Fagopyrum esculantus*, or *Chenopodium quinoa*.

If Group I is elected, Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for each A, B, and C for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-48 are generic.

An example of a proper election would be: Group I, species A: *Glycine max*; species B: *Triticum aestivum*; and species C: *Amaranthus hypochondriacus*

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 1654

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Coe whose telephone number is (703) 306-5823. The examiner can normally be reached on Monday to Thursday from 8:00 to 5:30 and on alternating Fridays.
